EDUCATION

METROPOLITAN INSTITUTE OF TECHNOLOGY AND MANAGEMENT

- COMPUTER ENGINEERING (BE)

July 2023 – May 2026

GPA: 7.5

GOVERNMENT POLYTECHNIC RATNAGIRI

- COMPUTER ENGINEERING (DIPLOMA)

Aug 2019 – May 2021

Percentage: 86.8%

EXPERIENCE

JUSTDIAL PTV. LTD | LINUX ADMINISTRATOR

Bengaluru, India | Nov 2021 – Feb 2024

- Managed 20+ Linux production/staging servers (MySQL, Nginx, Node.js, PHP-FPM) with hardening, logging, cron, automation.
- Developed Bash/Python scripts for backups, health checks, log rotation, failure recovery.
- **Owned end-to-end CI/CD pipelines** (Jenkins & GitLab) – created, maintained, resolved build/deployment issues.
- Used **Git** for code management (branching, merging, tagging) with GitLab/GitHub.
- **Containerized** internal tools with **Docker** (files, Compose); lifecycle, volume/network management, monitoring ('docker stats').
- **AWS basics** : Launched EC2 instances, security groups, stored scripts on S3.
- Deployed LEMP stack with PHP-FPM tuning, Nginx optimization, MySQL query tuning.
- Built monitoring dashboards (Node.js/Python) for CPU/memory/disk/network; log search with Sphinx.

LAB EXPOSURE

- **Kubernetes** : Pods, Deployments, Services, ConfigMaps (minikube)
- **Ansible** : Ad-hoc commands, playbooks for config automation

SKILLS

PROGRAMMING LANGUAGES	PHP, JavaScript, Python, Bash
CONTAINERS & ORCHESTRATION	Docker, Kubernetes (lab)
CI/CD & VERSION CONTROL	Jenkins, GitLab, GitHub
CONFIGURATION AUTOMATION	Ansible (lab), Terraform (lab)
CLOUD	AWS (EC2, S3 – basic)
OS & SERVERS	Linux (RHEL/CentOS/Ubuntu), Nginx
DATABASES	MySQL, MongoDB
LIBRARIES/Frameworks	Laravel, React, Node.js

PROJECTS / OPEN-SOURCE

WEB-TO-IOT CONTROL SYSTEM | [LINK](#)

Node.js, React, Vercel

- Reduced manual production tracking by 40% via realtime logs & emergency stop.
- Optimized dashboard load to <2s for 20+ concurrent users.

DIGITAL-MEMORYJAR (AI POWERED LIFE LOGGER) | [LINK](#)

- Automated container builds & deployments on Git push (cut deployment time from 15min to 3min).
- Used Docker volumes & env vars for zero-downtime updates.

K8S LOCAL DEPLOYMENT (LAB)

Docker, Minikube, kubectl

- Deployed 3-replica Node.js app with rolling update & rollback - zero downtime.
- Practiced ConfigMap, Service, and pod auto-restart policies.

CERTIFICATIONS

- RHCSA – Network Nuts.
